## PREFACE

This is the second publication providing results from the most recent Population Census of 1996. This bulletin will provide information on the H-Series or the Household characteristics. The statistics and information contained in this Report will assist planners, policy makers and researchers gain some insight into the structure of the Tongan household as well as important characteristics of Tongan households. Other volumes produced from results of the 1996 Census include the General or Main Census Report, the Internal Migration Report and the Demographic Analysis Report.

This report contains two parts: Part1 gives the Administrative Report and Part II gives the Statistical Tables. The administrative part concentrates on general information about households and highlights the main findings of the Census. Part 2 gives the Statistical Tables.

This Report was prepared by the undersigned with the assistance of Mrs Mele P. Finau, Principal Statistician.

The Department would welcome any comments or queries concerning the statistics and information contained in this Report.

## 1. INTRODUCTION

The Census of 1996 collected a wealth of information on the population and characteristics of households including population structure, relationship of household members to the head of household, type of building, type of latrine, source of energy for lighting, source of energy for cooking, ownership of household assets, ownership of livestock, agricultural crops grown, house tenure and household waste disposal. The information on households is important for planning and decision making. Household information is also important for use as a sampling frame for various household surveys like a Household Income and Expenditure Survey, an Agricultural Census on a sample basis, a Fishing survey or a Labour Force Survey.

In the 1996 Census, a separate questionnaire was used to capture the characteristics of households. A special effort was made to keep the questions on household characteristics similar to those used in the 1986 Census for ease of comparison. However due to requests from major users, some questions asked in the 1986 Census were omitted and new questions were included in the 1996 Census. A major change in the 1996 Census included seeking information on all forms or types of utilities available in households compared to main utility requested in the 1986 Census. Questions on source of water, type of latrine, source of energy for lighting and source of energy for cooking required that households indicated all types used by each household. The 1996 Census omitted a washing machine from the list of household assets and included a computer. A new question on livestock was included in 1996 with the purpose of identifying households that owned livestock but not livestock population. Two other new questions on agricultural crops grown during 1996 and methods of household waste disposal were also included in the 1996 Census.

A household was defined in the 1996 Census as "those persons who usually eat together and share the work of preparing the food and/or the cost of work of providing it". Normally household members also live and sleep in the same building but experience has shown this is not always the case which is why the definition is based on eating together rather than on living or sleeping in the same building. This definition of a household used in the 1996 Census was the same definition used in the 1986 Census.

## 2. FINDINGS

### 2.1 Number of Households in Tonga

The Census of November 1996 counted a total of 16,194 households in the Kingdom of Tonga, an increase of 7.3 percent from 15,091 households recorded in 1986. Table 1 gives a comparison of the total number of households in 1986 and 1996 Censuses, total population, percentage distribution of households by division, and percentage change between 1986 and 1996 in number of households as well as the average household size for each Division.

There were new areas of settlement identified in 1996 and were assigned as new census blocks, mainly at Tongatapu, Vava'u and 'Eua. This is reflected in the increase of 11.0 percent in number of households recorded in Tongatapu, 7.1 percent in Vava’u and 3.8 percent in 'Eua, from the 1986 numbers. Population mobility has influenced the decrease in number of households recorded in Ha'apai and Niuas where there were lesser households identified in 1996 than in 1986, a decrease of 9.0 percent and 8.4 percent respectively (see Table 1). It is noted that the increase of 7.3 percent in number of households and the 3.3 percent increase in population had the impact of reducing the average household size from 6.3 persons in 1986 to 6.0 persons in 1996. Tongatapu had an average household size of 6.2 persons, Vava'u had 5.8 persons, Ha'apai had 5.5 persons, 'Eua had 6 persons and the Niuas had 5.3 persons.

Table 1: Total population, number of households, percentage distribution and average household size by Division, 1986 \& 1996

| Division | Population |  | No. households |  | Percent distribution of h/holds |  | Average h/hold size |  | percent change, no. of <br> h/holds, 1986-1996 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 1986 | 1996 | 1986 | 1996 | 1986 | 1996 | 1986 | 1996 |  |
| ongatap | 63,794 | 66,979 | 9,723 | 10,796 | 64.4 | 66.7 | 6.6 | 6.2 | 11.0 |
| Vava'u | 15,175 | 15,715 | 2,547 | 2,728 | 16.9 | 16.8 | 6.0 | 5.8 | 7.1 |
| Ha'apai | 8,919 | 8,138 | 1,615 | 1,469 | 10.7 | 9.1 | 5.5 | 5.5 | -9.0 |
| 'Eua | 4,393 | 4,934 | 790 | 820 | 5.2 | 5.1 | 5.6 | 6.0 | 3.8 |
| Niua | 2,368 | 2,018 | 416 | 381 | 2.8 | 2.3 | 5.7 | 5.3 | -8.4 |
| TOTAL | 94,649 | 97,784 | 15,091 | 16,194 | 100.0 | 100.0 | 6.3 | 6.0 | 7.3 |

Tongatapu Division had almost 67 percent of all households followed by Vava'u with almost 17 percent, Ha’apai had 9.1 percent, 'Eua had 5.1 percent and the Niuas had only 2.3 percent of all households. Figure 1 gives a graphical representation of the number of households in each Division. The total number of households went up by 7.3 percent from 15,091 in 1986 to 16,194 in 1996, while total population over the ten year period went up by 3.3 percent.

Figure 1: Distribution of Households by Division, 1996

$\square$ Tongatapu $\quad$ Vava'u $\square_{\text {Ha'apai }} \quad \square$ 'Eua $\quad \square_{\text {Niua }}$

### 2.2 Number of households by ethnicity and gender of head of household, 1986 \& 1996

Tonga is a paternal society where males headed a majority of the households ie 13,095 or 81 percent of all households while females headed only 3,099 or 19 percent of households. Table 2 gives a detailed breakdown of households by ethnicity of head of household as well as gender of head of household. There was a significant increase in the number of households headed by males, an increase of almost 61 percent from 8,137 in 1986 to 13,095 in 1996. There was also a significant decrease of 55.4 percent in the number of households headed by females, from 6,954 in 1986 to only 3,099 in 1996. Almost 97 percent of households or 15,670 were headed by Tongans or part-Tongans and only 3 percent of households were headed by non-Tongans. The number of households headed by non-Tongans went up by 12.4 percent from 466 in 1986 to 524 in 1996.

Table 2: Number of Households by Ethnicity and Gender of Head of Household, 1986 \& 1996

The Census of 1996 also collected information on household size or the number of persons in a household. Table 3 gives a breakdown of households by size and gender of head of household. The data indicates that 6,073 households or 37.5 percent had 4 to 6 persons, and 4,289 households or 26.5 percent had 7 to 9 persons. A similar picture is shown by households headed by males as well as households headed by females, with a majority of households consisting of 4 to 6 persons. Only 617 households or 3.8 percent had 13 or more persons and 3,734 or 23.1 percent had 1 to 3 persons.

Table 3: Number of Households by Size and Gender of Household Head, 1986 \& 1996

| HId Size/Gender of Head | 1986 |  |  | 1996 |  |  | \% Change1986-1996 |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Male | Female | Total | Male | Female | Total | Male | Female | Total |
| 1-3 | 1,653 | 1,406 | 3,059 | 2,837 | 897 | 3,734 | 71.6 | -36.2 | 22.1 |
| 4-6 | 3,033 | 2,656 | 5,689 | 4,890 | 1,183 | 6,073 | 61.2 | -55.5 | 6.7 |
| 7-9 | 2,270 | 1,899 | 4,169 | 3,609 | 680 | 4,289 | 59.0 | -64.2 | 2.9 |
| 10-12 | 830 | 711 | 1,541 | 1,237 | 244 | 1,481 | 49.0 | -65.7 | -3.9 |
| 13+ | 351 | 282 | 633 | 522 | 95 | 617 | 48.7 | -66.3 | -2.5 |
| Total | 8,137 | 6,954 | 15,091 | 13,095 | 3,099 | 16,194 | 60.9 | -55.4 | 7.3 |
| percent distribution |  |  |  |  |  |  |  |  |  |
| 1-3 | 20.3 | 20.2 | 20.3 | 21.7 | 28.9 | 23.1 |  |  |  |
| 4-6 | 37.3 | 38.2 | 37.7 | 37.3 | 38.2 | 37.5 |  |  |  |
| 7-9 | 27.9 | 27.3 | 27.6 | 27.6 | 21.9 | 26.5 |  |  |  |
| 10-12 | 10.2 | 10.2 | 10.2 | 9.4 | 7.9 | 9.1 |  |  |  |
| 13+ | 4.3 | 4.1 | 4.2 | 4.0 | 3.1 | 3.8 |  |  |  |
| Total | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 |  |  |  |

Table 3 indicates a 22.1 percent growth in households of size 1-3 persons from 3,059 in 1986 to 3,734 in 1996. The number of households of size $4-6$ persons went up by 6.7 percent and households of size 7-9 persons went up by 2.9 percent. Households of size 10 persons or more showed a decrease in 1996 from the numbers recorded in 1986. Figure 2 gives a comparison of the size of households in 1986 and 1996

Figure 2: Household size 1986 and 1996

### 2.3 Structure of households

The structure of a household shows the relationship of household members to the head of household. The majority of households headed by Tongans (including Part-Tongans) or 46.7 percent consisted of a father, spouse and their children. About 21 percent of households had the household head and other members in the household but no children, and 13.6 percent had the household head living with his/her children but no spouse. Table 4 gives details of household structure in 1986 and 1996.

Table 4: Structure of households headed by Tongans (including Part-Tongans) by sex of head of household, 1986 \& 1996

| Household structure | 1986 |  |  | 1996 |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Male | Female | Total | Male | Female | Total |
| Head with no sons/daughters present | 2,002 | 564 | 2,566 | 2,499 | 723 | 222 |
| Nuclear family present | 8,229 | 57 | 8,286 | 7,277 | 47 | 7,324 |
| Head with sons/daughters present | 748 | 2,042 | 2,790 | 625 | 1,506 | 2,131 |
| Others | 731 | 252 | 983 | 2,266 | 727 | 2,993 |
| TOTAL | 11,710 | 2,915 | 14,625 | 12,667 | 3,003 | 15,670 |
| \% Distribution |  |  |  |  |  |  |
| Head with no sons/daughters present | 17.1 | 19.3 | 17.5 | 19.7 | 24.1 | 20.6 |
| Nuclear family present | 70.3 | 2.0 | 56.7 | 57.4 | 1.6 | 46.7 |
| Head with sons/daughters present | 6.4 | 70.1 | 19.1 | 4.9 | 50.1 | 13.6 |
| Others | 6.2 | 8.6 | 6.7 | 17.9 | 24.2 | 19.1 |
| TOTAL | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 | 100.0 |

### 2.4 Type of Buildings

Census results showed that out of the total 16,194 households in Tonga, 10,760 or 66.4 percent lived in European type houses made of wood, 3,154 or 19.5 percent of households lived in European type houses made of bricks or cement, 1,110 households or 6.8 percent lived in Tongan styled houses with thatch roof and thatch walls, 502 or 3.1 percent of households lived in Tongan style houses with thatch roof and wooden walls, 365 or 2.3 percent of households had Tongan style houses with iron roof and thatch walls, and 303 or 1.9 percent of households had other types of houses not mentioned above. Details of the number of households by type of building is given in Table 5.

Table 5: Number and Percentage of Households by type of Building, 1986 \& 1996

| Type of building/No. \& \% Hlds | 1986 |  | 1996 |  | \% change |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | No. Households | \% of HIds | No. Households | \% of HIds |  |
| Tongan style, iron roof, thatch walls | 1,126 | 7.5 | 365 | 2.3 | -67.6 |
| Tongan style, thatch roof, wooden walls | 631 | 4.2 | 502 | 3.1 | -20.4 |
| Tongan style, thatch roof, thatch walls | 1,111 | 7.4 | 1,110 | 6.8 | -0.1 |
| European style, brick or cement | 2,600 | 17.2 | 3,154 | 19.5 | 21.3 |
| European style, wooden | 9,089 | 60.2 | 10,760 | 66.4 | 18.4 |
| Others | 534 | 3.5 | 303 | 1.9 | -43.3 |
| TOTAL | 15,091 | 100.0 | 16,194 | 100 | 7.3 |

There was a significant move in preference of building from Tongan styles to European styles. This is indicated by significant decreases in all types of Tongan houses and increases in the number of European styled houses from the numbers recorded in 1986. The distribution of households in 1996 by type of building is clearly illustrated in Figure 3.

Figure 3: Distribution of households in Tonga by type of building, 1996

### 2.5 Source of Water

Out of the total of 16,194 households in Tonga, 13,705 or $84.6 \%$ of households had access to piped water supply; 9,444 or 58.3 percent of all households had their own water tank; 393 or 2.4 percent of households had their own well, and 175 or 1.1 percent had other sources of water supply than those mentioned above. It is possible for a household to have access to more than one source of water supply. For example, a household may have access to piped water as well as have its own water tank or well. Details of the number of households by source of water supply available to households in the Kingdom is given in Table 6.

Table 6: Number of households by source of water available to households, 1996

| Source of Water | Number of Households |
| :--- | ---: |
| Piped | 13,705 |
| Own Tank | 9,444 |
| Own Well | 393 |
| Other | 175 |

The distribution of households by source of water supply is clearly illustrated in Figure 4, showing that piped water is the main source of water for most households in the Kingdom.

Figure 4: Number of households by source of water supply, 1996

### 2.6 Types of Latrine

Information on types of latrine indicated that 9,033 households or 55.8 percent had a flush toilet, 5,799 or 35.8 percent of households had a pit toilet and 2,799 or 17.3 percent of households had a manual flush toilet. It is possible for a household to have more than one type of latrine. For example, a household may have a flush toilet as well as a pit or manual flush toilet. Details of latrine available in households by each division is given in Table 7.

Table 7: Number of Households by Type of Latrine by Division, 1996

| Latrine Type/Division | Tongatapu | Vava'u | Ha'apai | 'Eua | Niuas | Total |
| :--- | :--- | :--- | :--- | :--- | :--- | :---: |
| Flush | 7,227 | 1,023 | 359 | 323 | 101 | 9,033 |
| Manual | 2,492 | 78 | 141 | 80 | 8 | 2,799 |
| Pit | 1,879 | 2,047 | 1,095 | 484 | 294 | 5,799 |
| Other | 41 | 7 | 3 | 2 | 0 | 53 |
| None | 50 | 16 | 6 | 11 | 9 | 92 |

### 2.7 Source of Energy for Lighting

Information on source of energy used by households for lighting indicated that out of the total of 16,194 households in Tonga, 12,727 or 78.6 percent used electricity, 5,888 or 36.4 percent of households used kerosene, 673 or 4.2 percent of households used benzine, 430 or 2.7 percent of households used solar energy, 355 or 2.2 percent of households used their own power generator and 320 or 2.0 percent of households used other forms of energy not specified above. One household may have used two or more sources of energy. For example, a household may have used electricity as their principal source of energy for lighting and may occassionally use a benzine or kerosene lantern. The Census counted all sources of energy used by households for lighting. Details of the number of households using each source of energy for lighting is given in Table 8.

Table 8: Number of Households by source of Energy for Lighting, 1996

| Source of Energy for Lighting | Number of Households |
| :--- | ---: |
| Electricity | 12,727 |
| Kerosene | 5,888 |
| Benzine | 673 |
| Solar | 430 |
| Generator | 355 |
| Other | 320 |

The distribution of households by type of energy used for lighting is clearly illustrated in Figure 5, showing that electricity was the main source of energy for lighting used by most households in 1996.

Figure 5: Number of Households by source of energy for Lighting, 1996

### 2.8 Source of Energy for Cooking

Information on the source of energy used by households for cooking indicated that out of the total of 16,194 households in Tonga, 11,947 households or 73.8 percent used firewood, 8,827 households or 54.5 percent used gas, 3,797 households or 23.4 percent used kerosene, 1,723 households or 10.6 percent used electricity and 87 households or 0.5 percent used other sources of energy not specified above. One household may have used two or more sources of energy for cooking. For example, a household may have used gas on rainy days and firewood on fine days and also on Sundays.

Table 9: Number of households by source of Energy for Cooking, 1996

| Source of energy for cooking | No. of households | percent of <br> availability |
| :--- | ---: | ---: |
| Electricity | 1,723 | 10.6 |
| Gas | 8,827 | 54.5 |
| Firewood | 11,947 | 73.8 |
| Kerosene | 3,797 | 23.4 |
| Other | 87 | 0.5 |
| TOTAL | $\mathbf{1 6 , 1 9 4}$ | $\mathbf{1 0 0 . 0}$ |

The distribution of households by source of energy used for cooking is clearly illustrated in Figure 6.

Figure 6: Percentage availability of source of energy for cooking, 1996

### 2.9 House Tenure

House Tenure refers to the form of right or title under which a house or building is held by the household. The results indicated that out of a total of 16,194 households in Tonga, 13,187 or 81.4 percent owned their houses, 2,090 households or 12.9 percent lived in houses that did not belong to them but were provided free of charge, 614 households or 3.8 percent lived in houses that were rented, and 303 households or 1.9 percent had other tenure arrangements. The distribution of households by tenureship of house is clearly illustrated in Figure 7.

Figure 7: Number of households by House Tenure, 1996

### 2.10 Livestock

Households were asked to indicate whether they had any cattle, horses, pigs, chickens or goats. Households were not asked to indicate how many livestock they had but simply to indicate whether they had any. Out of a total of 15,670 households that were headed by Tongans or part-Tongans, 2,463 households indicated they had cattle, 2,931 households had horses, 12,764 indicated they had pigs, 9,795 indicated they had chickens, and 1,618 indicated they had some goats.

The number of households by livestock owned at the time of Census 1996 is clearly illustrated in Figure 8.

Figure 8: Number of households with type of livestock, 1996

### 2.11 Household Assets

Households were asked to indicate whether they had any of the following assets: radio, bicycle, boat, hot water, shower, motor vehicle, refrigerator, TV, video or computer. Table 10 gives the number of households headed by Tongans or part-Tongans that had any of these assets with comparable figures for 1986.

Table 10: Number of Households headed by Tongans or Part-Tongans by household asset, 1986 and 1996

|  |  |  | percent distribution |  |
| :--- | ---: | ---: | ---: | ---: |
| Household assets | $\mathbf{1 9 8 6}$ | $\mathbf{1 9 9 6}$ | $\mathbf{1 9 8 6}$ | $\mathbf{1 9 9 6}$ |
| Radio | 2,346 | 13,858 | 16.0 | 88.4 |
| Bicycle | 691 | 5,433 | 4.7 | 34.7 |
| Boat | 112 | 938 | 0.8 | 6.0 |
| Hot water | 111 | 807 | 0.8 | 5.1 |
| Shower | 1,305 | 13,259 | 8.9 | 84.6 |
| Motor Vehicle | 383 | 5,387 | 2.6 | 34.4 |
| Refrigerator | 618 | 7,459 | 4.2 | 47.6 |
| Television | 218 | 6,286 | 1.5 | 40.1 |
| Video deck | 294 | 5,633 | 2.0 | 35.9 |
| Washing Machine | 521 | na | 3.6 | - |
| Computer | - | 225 |  | 1.4 |
|  | $\mathbf{1 4 , 6 2 5}$ | $\mathbf{1 5 , 6 7 0}$ | $\mathbf{1 0 0 . 0}$ | $\mathbf{1 0 0 . 0}$ |

There was a significant increase in the number of households that owned each household asset in 1986 when compared to 1996. In 1986, a washing machine was included in the list of assets but not included in 1996, and a computer was included in 1996 but not in 1986.

### 2.12 Households by crops grown during year 1996

The 1996 Census introduced a new question on crops grown by households during year 1996. A total of 69.4 percent of households had grown some agricultural crops during year 1996, and a relatively high percentage 22.9 of households indicated they had not grown any agricultural crops in 1996. Only 0.4 percent of total households had grown squash only and 7.4 percent had grown squash and other crops. Details of crops grown by division is given in Table 11.

Table 11: Number of Households headed by Tongans or part-Tongans by crops grown by division during year 1996

| Crops grown during 1996 | Tongatapu | Vava'u | Ha'apai | 'Eua | Niuas | Total |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

### 2.13 Household waste disposal

Information on household waste disposal indicated that most households or 87.7 percent of total households headed by Tongans or part-Tongans dispose their household waste by burning; 4.3 percent of households bury their household waste and 0.7 percent throw their household waste in the lagoon or ocean. A further 7.3 percent of households indicated they disposed their household waste by other methods, with a majority of households in the Greater Nuku'alofa area having their household waste collected on a regular basis by the Ministry of Health. Table 12 gives details of the number of households headed by Tongans or part-Tongans by method of household waste disposal in each Division.

Table 12: Number of Households headed by Tongans or part-Tongans by household waste disposal, 1996
